ANTI-CORRUPTION COMMISSION

COMMISSION MEETING FORM

MEETING NO.	15th Commission Meeting
DATE:	06 February 2026
TIME:	03:30 PM
VENUE:	*Druk Dradhir Khang*

#	AGENDA & DISCUSSION	DECISION
1	Draft SoP on the Polygraph function – DoI & LD *DoI and LD apprised the Commission on the advice of the Manuals/Guidelines/SoP Review Committee, which underscored the need to seek the Commission's directives on the scope of application of the polygraph equipment prior to reviewing and finalizing the draft Standard Operating Procedure (SoP). The draft SoP covers the guiding principles, approval mechanisms, and operational safeguards governing the administration and use of polygraph examinations.* *To facilitate the discussion, Sangay Khandu as the, designate Officer provided contextual updates, informing on the completion of 400 hours of specialized polygraph training from Taxes, US along with one officer from the RBP. In terms of budget utilization, Nu. 0.584 million had been incurred on the procurement of the polygraph equipment against the approved budget of Nu. 0.861 million, with additional expenditures of Nu. 0.187 million for a laptop and Nu. 0.025 million for a display screen. The remaining balance is expected to be used for the procurement of essential accessories and the set-up of a designated polygraph room. With this, the Department is left with integration of polygraph service requests into CIMS, procurement of remaining accessories, and technical validation and advisory support from the CPIB, Singapore.* *With regard to the proposed scope of application, ranging from post-conviction testing and pre-employment screening to internal and corporate investigations, preventive measures, counter-intelligence, criminal investigations, and civil dispute*	**Decided as follows:** - **limit the scope of application of polygraph within the ACC related functions (investigation and DARe) and must undergo rigorous pilot testing and validation.** - **any future consideration of extending polygraph services to other agencies would be ascertained only after internal operational needs are met and the system is fully stabilized.** - **explore budget to progressively build a sustainable pool of trained examiners, with due consideration for gender balance.** - **allocate separate budget for annual subscription to the American Polygraph Association (APA).**

	resolution, the Commission observed that expanding the scope beyond the ACC's investigative mandate at this stage would pose significant capacity constraints. It was further noted that the voluntary nature of polygraph examinations also limits enforceability in several of the proposed application areas, warranting a cautious and phased approach in defining the scope.
