ANTI-CORRUPTION COMMISSION

COMMISSION MEETING FORM

MEETING NO.	31st Commission Meeting
DATE:	27 July, 2026
TIME:	03:30 PM
VENUE:	Druk Dradhir Khang

#	AGENDA & DISCUSSIONS	DECISIONS
1	**Review of the annual performance dashboard for the financial year 2025-2026 – PPD** *The Commission was apprised of the annual evaluation of the Performance Dashboard for FY 2025–2026, which was carried out at three levels: self-assessment, verification by the PPD, and joint evaluation by a committee comprising representatives from the Departments, Divisions, and Regional Offices.*	The Commission approved the recommendations of the Joint Evaluation Committee, with the following observations and decisions: - The current assessment of the KPI *'Reduced rate of complaints returned for further analysis during the appraisal process, either at CEC or CM, from the total complaints received'* places Regional Offices handling fewer complaints at a disadvantage. While the scores for the current assessment were retained, the Commission directed PPD to review the KPI. - Scoring '0' for the KPI '*improved proportion of cases investigated resulting in systemic recommendations/disciplinary sanctions'* does not adequately recognize the efforts involved in investigating cases, particularly as not all investigations result in prosecution and systemic/disciplinary recommendations are themselves a significant outcome. Accordingly, the Commission approved revising the scores of the Trashigang and Bumthang ROs to 64.99 ("Fair") and directed PPD to review the KPI to better reflect the intended outcomes of investigations. - Some of the KPIs, such as ICT-related initiatives, involve significant contributions from multiple Departments and Divisions, although the performance score is currently attributed only to one Division. While no change was made to the current assessment, the Commission directed PPD to take such shared contributions into account when reviewing and refining the future KPIs. - Polygraph Guideline was drafted by the DoI, while the LD only carried out the legal vetting and pointed out that such distinction has to be made accurately.

		- Observed a gap between IWP assessments and Departmental/Divisional performance and directed PPD to review the alignment between individual, Departmental/Divisional, and organizational performance assessments. Overall, the Commission directed PPD to further strengthen the Performance Dashboard by developing focused, meaningful, and measurable KPIs that capture intended outcomes rather than easily measurable outputs. Departments and Divisions were directed to jointly review and refine their KPIs to ensure they measure what truly matters. The Commission also emphasized that, for example, the KPIs of the DoPE should assess the outcomes and effectiveness of awareness and education programmes, beyond the conduct of such activities.
