#	AGENDA	DECISIONS
1	Review the Youth Integrity Program - Education Division, DoPE	The Education Division, DoPE presented the Youth Integrity Program in detail to the Commission. The program intends to educate and instill values (ethics, integrity and professionalism) in the youth of Bhutan including the out-of-school youth as anti-corruption advocates. *The presentation is attached herewith.* The Commission endorsed the program, in general, and further directed the following to enrich the existing activities: - Strengthen collaboration with key agencies and entities to effectively implement the program, including use of social media; - Increase the number of integrity clubs in the schools, as also targeted by the Department and further focus on the proposal to mainstream into the education system through a School Integrity Program. - Conduct periodic review of the program as well as regular evaluations to assess the impact of the program through research/survey. To this, the Department was directed to look into the feasibility of a survey/research on integrity & value education to be conducted periodically. If done once in every three years, alongside the NIA, it could complement and further widen the scope of assessment. The Commission also reminded the Education Division to prepare and plan to conduct tracer studies on the members of the Integrity Clubs as directed in the 6th Commission meeting held on 16 December 2020 to follow the behavioral change in the students. - To collaborate with individual academic researchers who may be studying/researching on values and integrity in our society to deepen knowledge and strengthen the integrity and anti-corruption measures. - To review and follow up on the suggestions made by the integrity club coordinators during the IACD 2020.

		- To revise the title of the program to make it enticing for the implementers. - The Department to review the idea to recognize and promote young thought leaders or integrity champions through informal yet prestigious structure. - Education Division to explore and initiate youth engagement maximizing the potential of social media.
2	Propose to review prioritization guideline – Screening Committee	The Screening Committee proposed the Commission to review the *Prioritization Guideline* to bring clarity in the procedures and align it with the revised ToR of the Committee decided by the Commission in its 3rd meeting held on 24 November 2020. As proposed, the Commission endorsed the way forward to review the guideline within a month. The working group to review the guideline to be assigned in consultation with the relevant Departments/Divisions. Further, the Commission directed the Committee to withhold screening and sequencing complaints for investigation until the new prioritization is enforced.
3	Any other: - Update on the request to participate in the nomination of films - Follow-up on adopting social media to lodge corruption	The Commission informed that the film council who requested for the ACC's participation, as observer, in the nomination of films to the national film awards was cancelled. The Commission directed DoPS and ICT to expedite the work on instituting corruption reporting through social media by consulting the MoIC.
