#	AGENDA	DECISIONS
1	Follow-up update on the ADS SRS – ADMD *ADMD presented on the final SRS on ADS to the Commission on 17 March 2021*	The ADMD apprised the Commission on the following directives viz. to check legal provisions on declaring virtual assets and requirement of foreign public servants to file AD; explore the possibility of having ADS system in Dzongkha version and sharing information related to other anti-corruption measures/programs; and check feasibility viz-a-viz legality on sharing information related to complaints and cases. *Detailed note on the follow-up update is attached.* In general, the Commission noted on all the follow-up updates with few specific directives as follows: • ADMD to further establish clarity regarding the requirement of foreign public servants to file AD as the definition of 'Public Servant' under the ACAB 2011 does not adequately justify the coverage of foreign public servants. • ADMD to look into the need to amend the schedule of public servants while updating the manuals/SOPs based on the vulnerability. • Given that the ADS is the most accessed business system of the ACC, ADMD to include features in the enhanced ADS to provide general information on corruption issues/anti-corruption measures including implementation status of the OIP. • Information sharing related to complaints to be strictly restricted to the ADMD. • Given the additional requirement of budget and time to include data encryption features in the enhanced ADS, ADMD was directed to do away with encryption. Further, the Commission noted that the likelihood of breach in ADS data privacy is improbable. Instead, the Commission directed to strengthen the data backup.
