ANTI-CORRUPTION COMMISSION

COMMISSION MEETING FORM

MEETING NO.	21st Commission Meeting
DATE:	9 April, 2021
TIME:	09:30 AM
VENUE:	ACC Conference Hall

#	AGENDA	DECISIONS
1	Presentation on Competency Based Framework – Task Force	The Task Force presented the final draft Competency Based Framework (CBF), which consist of 58 Key Roles, 105 Competency Areas, 240 Key Competencies, and 1981 Behavioral Indictors for the ACC's 22 positions. The CBF categorizes the ACC staff into four Proficiency Levels viz. Foundation, Intermediate, Advanced & Expert. These proficiency categorization levels capture both the number of years in service and position levels. *The power point slide on the CBF is attached.* To this, the Commission approved the CBF for implementation with following specific directions: • Incorporate '*innovation*' aspect also under the role of professionals working in the Prevention Division in view of the nature of job that requires devising innovative solutions to prevent corruption. • Revise the title '*interrogation & detention*' in keeping with the support function that it undertakes. • Highlight the qualities of *being proactive, resourceful* and *creative* being valued for all functions. • Revise the existing Ethical Code of Conduct in line with the Core Competencies identified under the CBF. In addition, the Commission directed to initiate presentation of the CBF to the RCSC for endorsement only after the consultative meeting on Civil Service Reform, scheduled on 13 May 2021. This may allow incorporation of some suggestions/feedback as deemed appropriate.

Background

- **Partnership for Transparency Fund (PTF) – 2012**

  [Rajesh Vidyasagar (HR Specialist) – scope of the assignment is huge and is not available for immediate contract]

- **Basel Institute on Governance (BIG) – 2013**

  [Gretta Fenner Zinkernagel (MD) – has no expertise in the field of HR]

- **World Bank – 2013**

  [Susan Wakabayashi – Proposed to deliver the assignment in four phases including ToT on use of competency framework in 85 working day at USD 187,000.00 excluding travel, per diem & accommodation (approx. Nu. 11.2 mn @ ER Nu. 60.00).]

- **Morris & McDaniel, Inc. : Management Consultant – 2013**

  [Secured approval for direct contracting from MoF and awarded the contract at USD 100,000.00. Later the contract had to be terminated due to poor quality of outputs.]

- **Altius League: Redefining Leadership – 2014 to 2015**

  [Adrian Chan and team – delivered HRMP 2020.]

Background Contd.

- **Strategic HRD Plan for the 12th FYP – 2018**
  - *Nu. 2.00 billion has been apportioned as HRD budget.*
  - *Agencies are required to develop Competency Framework to secure HRD budget, among others.*
  - *MoF to release budget only for mandatory trainings.*
  - *No major donor to support HRD.*
- **Organizational Climate Index 2019**
  - *One of the lowest rated domains was 'Training and career development' with a mean of 3.53 in the verbal rating of Good*
  - *Of the 70 indicators, two lowest rated indicators were 'My organization nominates right people for the right training' and 'There is clear career advancement opportunity in my organization' of the 'training and career development' domain.*
- **Adoption of NIACS 2019 – 2023**
  - *During presentation on NIACS to the Cabinet, HPM instructed to come up with concrete proposal on HRD*

ACC

What is Competency-Based-Framework?

- A model that broadly outline a **framework consisting of number of competencies** for managing performance within an organisation.
- A means by which organizations communicate on which behaviours are **required, valued, recognized and rewarded** with respect to specific occupational roles.
- Acts as a guide to **identify skills need** of employees, assist **continuous development** and **professionalization** of staff to deliver responsibilities effectively and enhance efficiency.

ACC
www.acc.org.bt

Key Features of Competency Framework

Organization Goals & Job Roles
Current & future goals and plans. Type of workforce required. Roles in each job to achieve current and future goals.

Core Competencies
Values, attitudes and beliefs of organization. All employees must own and demonstrate everyday.

Leadership Competencies
Values, attitudes and behaviours for effective leadership

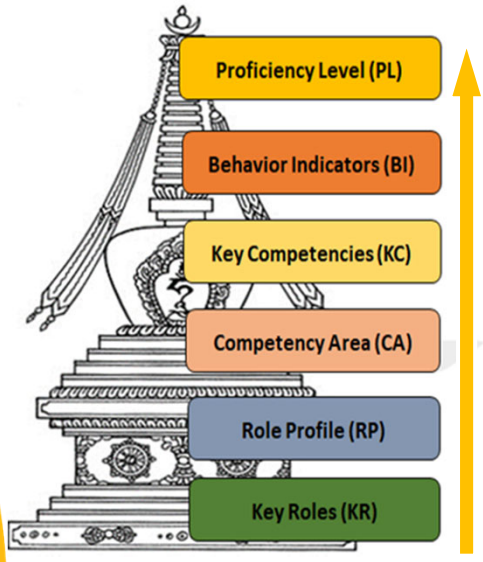

Technical Competencies
Job-specific, behaviours relevant to field of expertise. Heart of what people do.

Proficiency Levels
Typically set at 3 to 5 levels to guide development and assess performance

Competency Assessment & Development
Analyze gaps and training needs. Set development plans and goals.

ACC
www.acc.org.bt

Components of Competency Framework

- **Proficiency level** describes the level of competency required to perform a specific task effectively.
- **Behavior indicator (BI)** is an observable behavior that indicates the presence of a particular competency. BI serves as a tool to guide evaluation of employee performance.
- **Key competency** is a specific attribute required in an individual to perform the task effectively.
- **Competency area** is a cluster of competencies by related behavior and functions of each role.
- **Role profile** is the description of roles that the individuals are expected to demonstrate in achieving departmental/organizational goals.
- **Key role** is an organized set of behaviors that are crucial to achieve departmental/organizational goals.
- **Core values** are principles and values that govern individual actions and the choices one makes.

ACC
www.acc.org.bt

What Are Competencies – The KSA Concept

Competencies
Combination of **observable** and **measurable** knowledge, skills, abilities and personal attributes for enhanced performance and organizational success

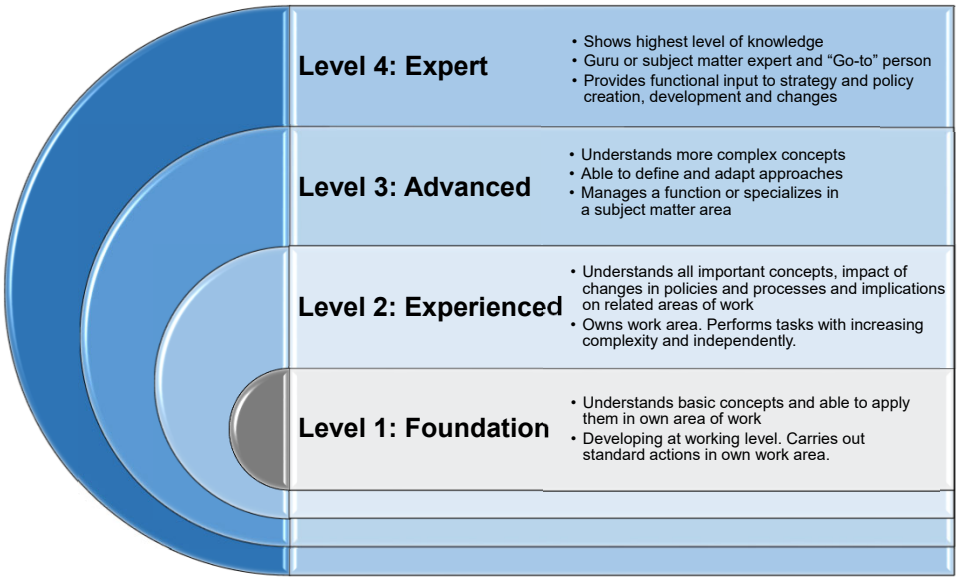

K — **Knowledge –** Information applied directly to performance of work. Application and sharing of knowledge base critical to success. Gained from formal education and/or experience.

S — **Skills –** Technical or manual proficiencies to perform a task. Acquired through specialized training. Measurable and observable.

A — **Abilities –** Capacity to apply several knowledge and skills simultaneously. Include personal and social attributes. Innate and enabling talent to help a person do a job.

ACC

Typical Proficiency Levels

Adapted from Various Sources

Components of Competency Framework

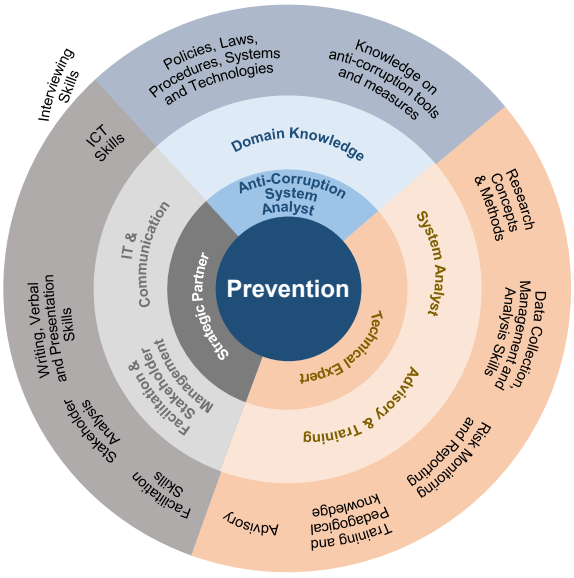

Proficiency Level

Investigation Management

	Foundation	Intermediate	Advanced	Expert
Investigation management and evidence collection skills	Demonstrates sound knowledge of investigation management system	Uses investigation management system to document and maintain records of investigation/cases	Uses and ensures use of investigation management system to conduct investigation efficiently	Manages investigation/cases effectively using investigation management system and provides inputs for system enhancement
	Demonstrates sound understanding of search & seizure procedures	Conducts search & seizure operations systematically to discover & retrieve evidences	Leads search & seizure operations to discover & retrieve evidences	Guides search & seizure operations teams to ensure discovery and retrieval of evidences

ACC
www.acc.org.bt

Components of Competency Framework

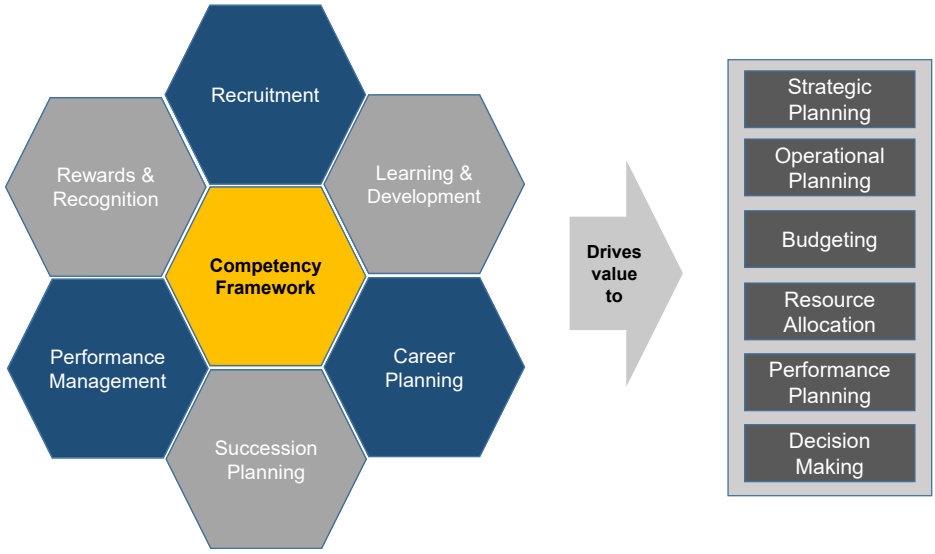

Anti-Corruption System Analyst: Examines systems and procedures of agencies to identify fraud/corruption vulnerabilities and provides appropriate recommendations to mitigate fraud/corruption.

Technical Expert: Develops appropriate anti-corruption tools/measures and provides technical backstopping for effective implementation including enhancement of the tools/measures for greater effectiveness.

Strategic Partner: Identifies and collaborates with relevant stakeholders to mainstream anti-corruption measures and build strong alliance against corruption.

ACC
www.acc.org.bt

Competency Eco-System

Source: Adapted from The Skills Base Competency Framework

www.acc.org.bt

Application of Competency Framework

- **Planning**: Job design – identification of knowledge, skills and abilities (KSA) necessary to achieve the highest performance standards for a given job.
- **Recruitment**: Assessment of candidates to determine their suitability for a given job.

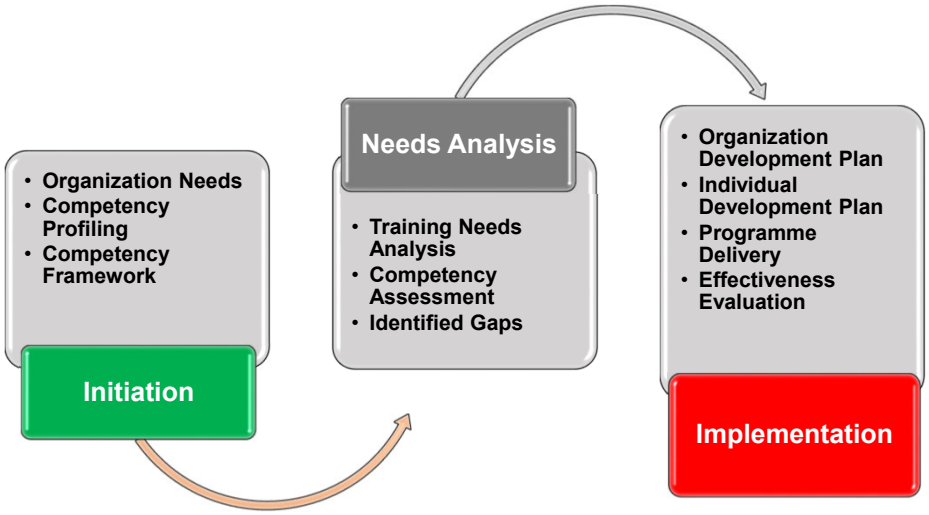

Education Function

	Foundation *Probationer*	Intermediate *P5 - P4*	Advanced *P3 - P2*	Expert *P1*
Domain Knowledge				
Policies, Laws, Procedures, Systems and Technologies	Demonstrates sound knowledge of the ACC's values, policies, standards and anti-corruption measures/tools to effectively carry out the education mandate	Displays sound knowledge of the ACC's values, policies, standards and anti-corruption measures/tools to effectively carry out the education mandate	Displays sound knowledge of the ACC's values, policies, standards and anti-corruption measures/tools to effectively carry out the education mandate	Displays wholesome knowledge of the ACC's values, policies, standards and anti-corruption measures/tools to effectively carry out the education mandate
IT and Communication				
Multimedia Skills	Demonstrates basic knowledge and skills of multimedia to develop/assess IEC materials and behavioral change programs	Demonstrates sound knowledge and skills of multimedia to develop/assess IEC materials and behavioral change programs	Uses knowledge and skills of multimedia to develop or assess IEC materials	Uses knowledge and skills of multimedia to develop or assess IEC materials
Digital Marketing Skills	Demonstrates knowledge of digital marketing skill	Uses digital platforms including social media & ICT Skills to effectively disseminate anti-corruption policies/measures and corruption issues	Uses digital platforms including social media & ICT Skills to effectively disseminate anti-corruption policies/measures and corruption issues	Assesses the effectiveness of digital platforms including social media & ICT skills to effectively disseminate anti-corruption messages policies/measures and corruption issues
Facilitation and Stakeholder Management				
Stakeholder Analysis	Recognizes the importance of stakeholder engagement in the fight against corruption	Assist in coordinating anti-corruption programs/trainings & other forums to strengthen collaboration	Engages stakeholders in anti-corruption programs/trainings & other forums to strengthen collaboration	Bridges connection with stakeholders and assesses relevance and effectiveness of stakeholder engagement
Innovation and Creativity				
Curiosity	Seeks ideas & feedback, from peers & stakeholders to develop oneself professionally	Seeks ideas & feedback, from peers & stakeholders to develop oneself professionally	Seeks ideas & feedback, from peers & stakeholders to develop oneself professionally and encourages exchange of feedback	Seeks ideas & feedback, from peers & stakeholders to develop oneself professionally and encourages exchange of feedback
Program Coordination, Management and Evaluation				
Monitoring and Evaluation	Demonstrates understanding of types and importance of monitoring and evaluation	Assist in developing monitoring & evaluation protocol/system to assess the effectiveness of education programs	Develops monitoring & evaluation protocol/system to assess the effectiveness of education programs	Assesses the relevance and effectiveness of monitoring & evaluation protocol/system

www.acc.org.bt

Application of Competency Framework

- **Professional development**: Identification of skills gap and accordingly introduce appropriate learning and professional development interventions.

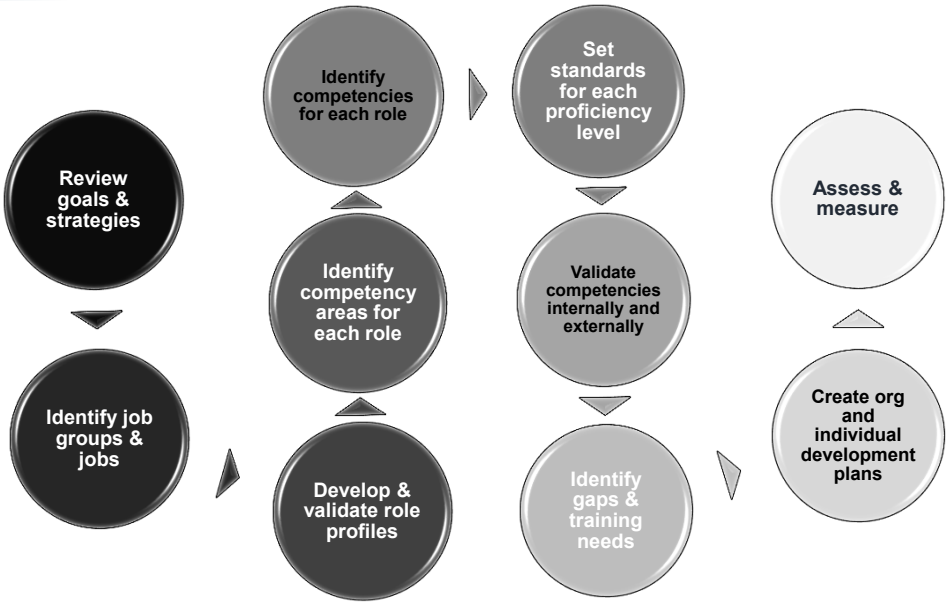

ACC
www.acc.org.bt

Application of Competency Framework

- **Succession planning and talent management**: Identification and development of talent for leadership positions and ensures that the right people are appointed for right roles for enhanced performance.
- **Performance management**: Set out performance expectations and standards against which staff will be assessed, valued, recognized and rewarded.

ACC
www.acc.org.bt

Typical Steps in Developing Competency Framework

ACC
www.acc.org.bt

Methodology

- **Desk Review** of existing documents on HRD&M

  [Third week of August 2019]

- **Focused Group Discussion** with Departments/Divisions/Services

  [Interacted with about 51 staff from all the Departments/Divisions/Services to understand existing competencies of various positions and identify key competency gaps and need in various positions]

- **Semi-Structured Interview** with individuals and managers

  [Conducted interview using purposive method (position & function wise) with 40 staff from all the Departments/Divisions/Services to understand existing competencies of various positions and identify key competency gaps and need in various positions]

- *One day **session on Competency Framework** by RCSC Master Trainers*

  [Two Master Trainers identified by the RCSC shortened five days sessions to one day]

- *Workshop on defining **Key Roles, Role Profiles, Competency Areas and Key Competencies***

  [58 Key Roles and Profiles, 101 Competency Areas, 225 Key Competencies for 22 positions which took about two months including validation]

- *Workshop on determining **Behavior Indicator** for each key competency*

  [Identified 1888 Behavior Indicator for 225 Key Competencies]

- *Workshop on developing **Proficiency Levels***

  [Developed four proficiency levels for the ACC cadre namely Foundation, Intermediate, Advanced & Expert]

ACC

Competency Framework for the ACC

Core Competency

- Set of performance behaviors that all staff in the ACC must exhibit.
- Foundation for other performance behaviors to enable effective application in the workplace.
- Include organizational values, principles, standards and basic office management skills

1. Integrity & Professional Ethics
- ❖ Professionalism
- ❖ Ethics & Integrity

3. Strategic Thinking & Planning
- ❖ Future Orientation
- ❖ Resilience
- ❖ Self Awareness & Development
- ❖ Tenacity of Purpose

2. Leadership & Management
- ❖ Leadership
- ❖ Decision Making Skills
- ❖ Problem Solving & Conflict Resolution Skills
- ❖ Emotional Intelligence
- ❖ Negotiation Skills

4. Partnership & Collaboration
- ❖ Team Building
- ❖ Networking
- ❖ Interpersonal Skills
- ❖ Collaboration

4 Competency Area, 15 Key Competencies & 93 Behavior Indicators

ACC
www.acc.org.bt

Competency Framework for the ACC

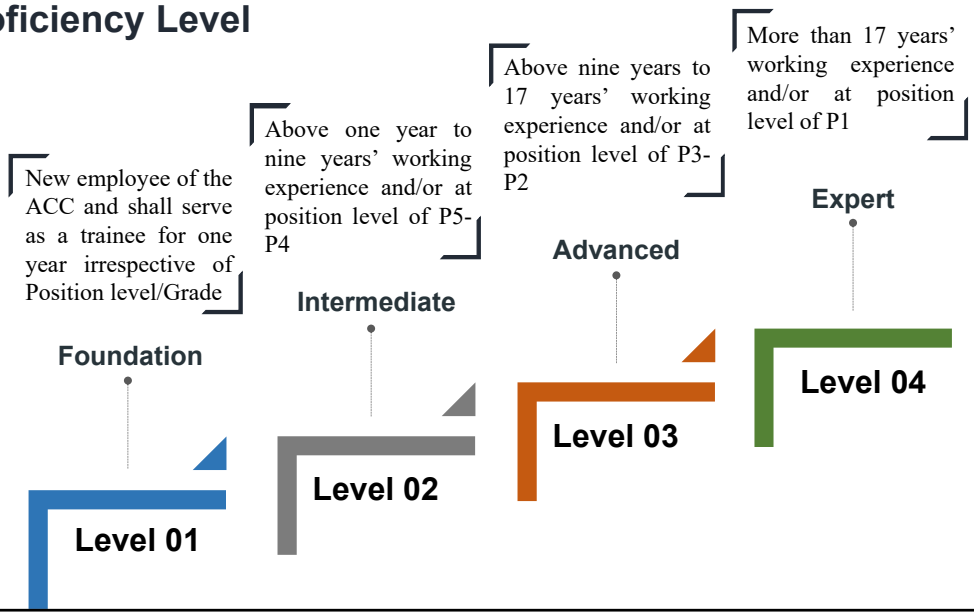

Technical Competency

- Set of performance behaviors identified based on the duties and responsibilities that one has to assume for a given job.
- Components of the technical competencies differs from one function to another depending on the job complexity and level of responsibility.
  - ✓ **58** Key Roles and Profiles
  - ✓ **101** Competency Areas
  - ✓ **225** Key Competencies for 22 positions
  - ✓ **1888** Behavior Indicators

ACC
www.acc.org.bt

Competency Framework for the ACC

Proficiency Level

ACC
www.acc.org.bt

Prevention

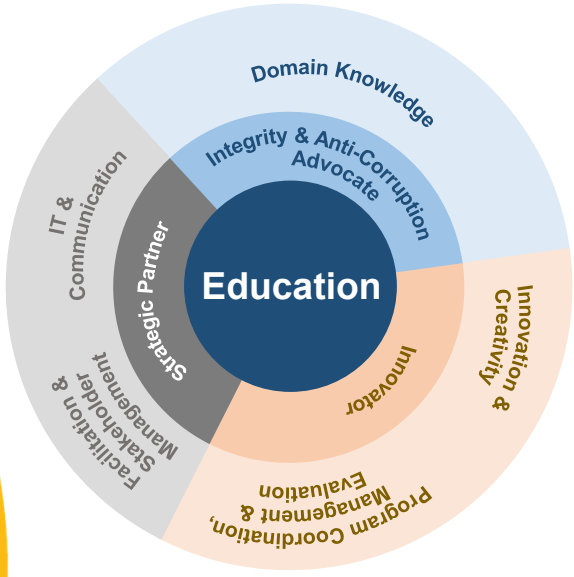

Anti-Corruption System Analyst: Examines systems and procedures of agencies to identify fraud/corruption vulnerabilities and provides appropriate recommendations to mitigate fraud/corruption.

Technical Expert: Develops appropriate anti-corruption tools/measures and provides technical backstopping for effective implementation including enhancement of the tools/measures for greater effectiveness.

Strategic Partner: Identifies and collaborates with relevant stakeholders to mainstream anti-corruption measures and build strong alliance against corruption.

ACC
www.acc.org.bt

Education

Integrity & Anti-Corruption Advocate: Promotes culture of integrity, ethics and intolerance to corruption in the society by educating and advocating various stakeholders on the ill effects of corruption and benefits of upholding ethics and integrity.

Innovator: Develops innovative education programs and dissemination strategies/techniques to plan, organize and conduct public awareness programs to disseminate anti-corruption messages efficiently and effectively.

Strategic Partner: Identifies and collaborates with relevant stakeholders to mainstream anti-corruption measures and build strong alliance against corruption.

ACC
www.acc.org.bt

Research

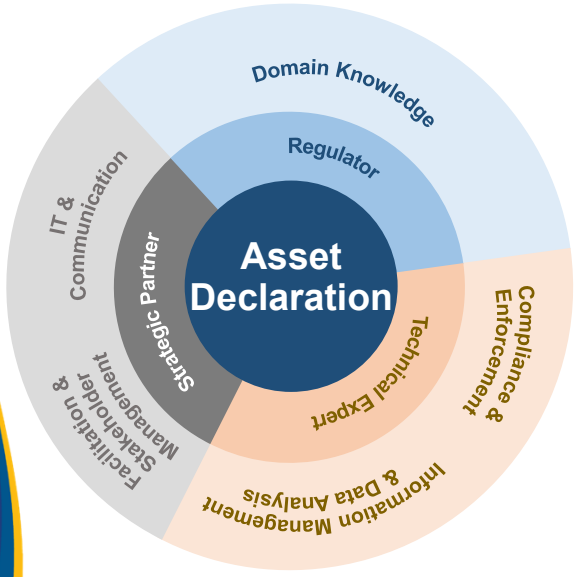

Researcher: Plans, organizes and conducts research using appropriate research approaches, concepts, methods and tools to identify corruption trends/scenario and guide the development of effective anti-corruption measures/policies.

Project Manager: Plans, organizes, implements and monitors research projects using appropriate project management techniques to achieve research objectives.

Strategic Partner: Identifies and deals with relevant stakeholders in a courteous manner to conduct credible research, establish professional networks and build resource center.

ACC
www.acc.org.bt

Asset Declaration

Regulator: Analyzes asset declarations diligently using appropriate screening & verification tools/techniques to ensure strict compliance with the Asset Declaration Rules and detect anomalies and red flags.

Technical Expert: Develops robust and user-friendly asset declaration systems using innovative ICT skills, standards and legal knowledge for successful management of asset declarations.

Strategic Partner: Builds rapport with relevant stakeholders by strictly complying with service standards and procedures and regularly engaging with the Asset Declaration Administrators.

ACC
www.acc.org.bt

Investigation

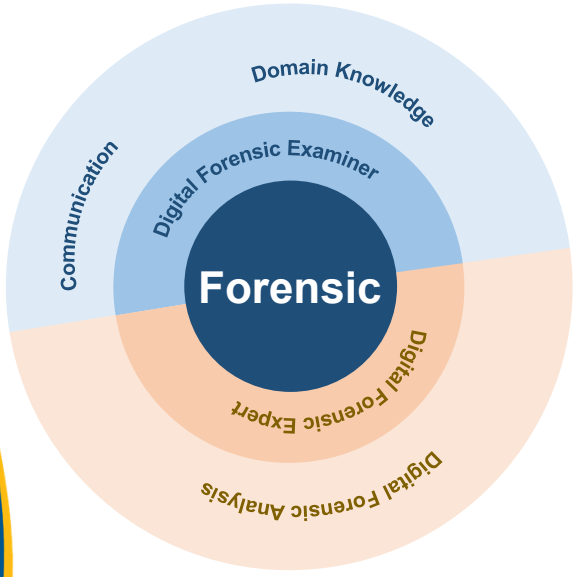

Fraud & Corruption Investigator: Plans, organizes and manages fraud & corruption investigations diligently following due process using appropriate investigative techniques and tools/systems for efficient and effective investigation.

Fraud & Corruption Analyst: Applies appropriate research and data analysis techniques and tools to examine information/data and make logical inferences/conclusion for effective investigation and prosecution.

Collaborator: Identifies and collaborates with key stakeholders/partners for swift and reliable exchange of information/technical expertise to conduct investigation expeditiously and build strong coalition against corruption.

ACC
www.acc.org.bt

Forensic

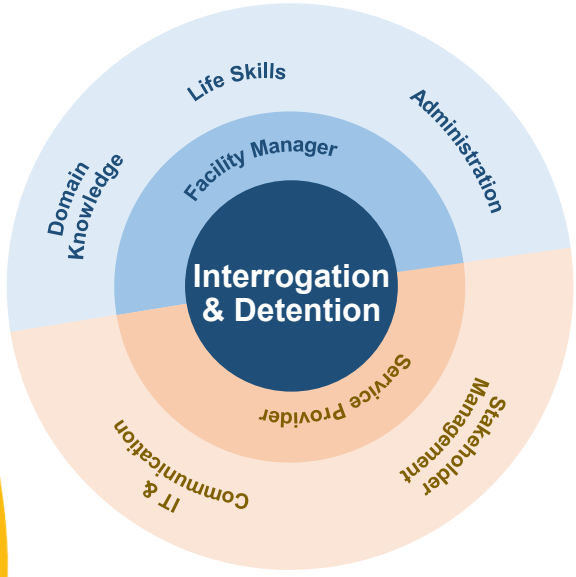

Digital Forensic Examiner: Applies appropriate scientific knowledge to acquire, retrieve, analyze, secure & report on digital data/evidence to effectively aid investigation & legal proceedings.

Digital Forensic Expert: Applies knowledge of relevant policies, laws, systems, SOPs, operating systems and digital devices to provide effective and efficient digital forensic services including enhancement of First Responder's guideline.

ACC
www.acc.org.bt

Interrogation & Detention

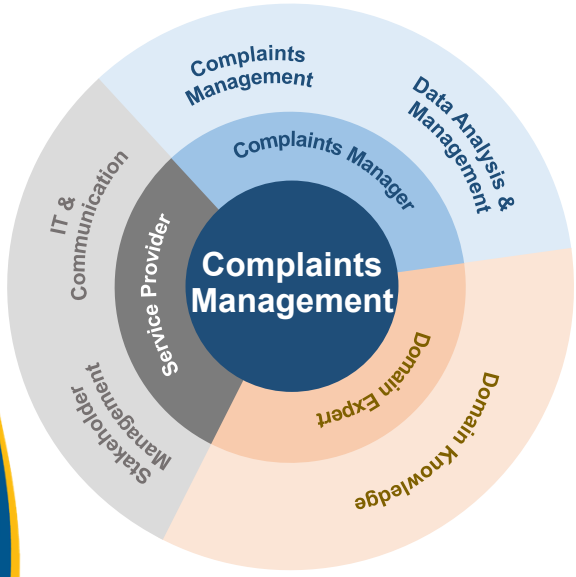

Facility Manager: Implements service standards and SOPs to ensure smooth functioning of interrogation & detention facilities and fair treatment of detainees/suspects/witnesses.

Service Provider: Makes judicious use of facilities and equipment and follows service standards and procedures to ensure quality service delivery for efficient & effective management of interrogation and detention facilities.

ACC
www.acc.org.bt

Complaints Management

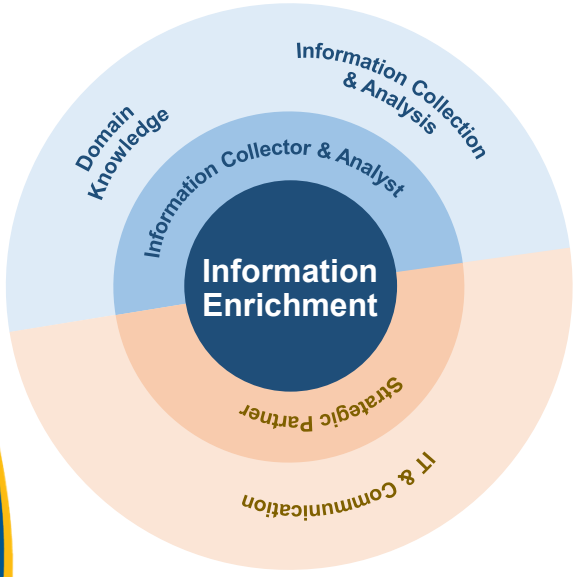

Complaints Manager: Receives, registers, reviews and enriches complaints/Action Taken Reports as per SOP applying appropriate research and analytical techniques to facilitate informed decision making.

Domain Expert: Applies knowledge of relevant policies, laws, systems and disciplines to efficiently & effectively manage complaints and strengthen complaints management system.

Service Provider: Utilizes appropriate facilities, equipment and follows service standards and procedures to ensure quality service delivery for efficient & effective management of complaints/Action Taken Reports.

ACC
www.acc.org.bt

Information Enrichment

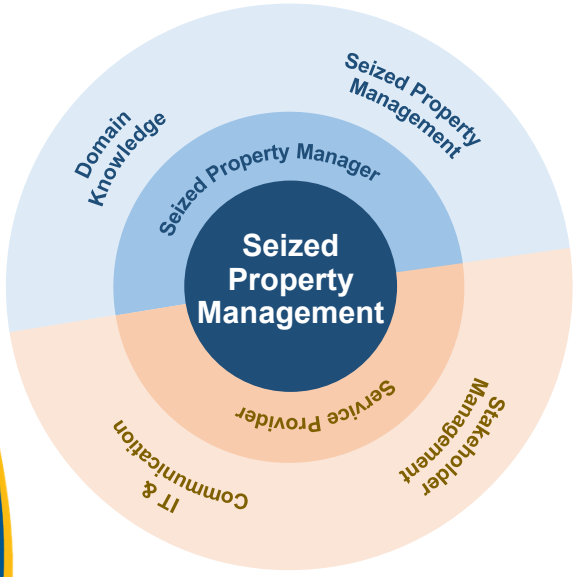

Information Collector & Analyst: Applies knowledge of relevant policies, laws, systems and relevant disciplines coupled with appropriate research and data analysis techniques and tools to plan, organize and conduct information enrichment successfully.

Strategic Partner: Identifies and collaborates with relevant stakeholders/partners to strategize swift and reliable exchange of information/technical expertise for conducting information enrichment expeditiously.

ACC
www.acc.org.bt

Seized Property Management

Seized Property Manager: Plans, organizes and manages seized properties including abandoned properties using appropriate systems to prevent decay, deterioration, depreciation and uphold integrity of seized properties.

Service Provider: Utilizes appropriate facilities, equipment and follows service standards and procedures to ensure quality service delivery for efficient & effective management of seized properties.

ACC
www.acc.org.bt

Follow-up & Documentation

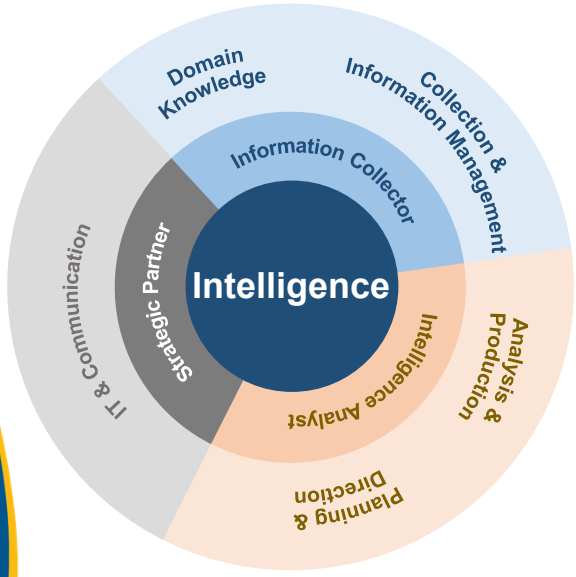

Coordinator: Applies knowledge of relevant policies, laws, systems, SOPs and relevant disciplines together with appropriate research and data analysis techniques to consolidate, coordinate & follow up on post investigation referrals.

Service Provider: Implements service standards and procedures to provide prompt and quality follow up and documentation services including conducting integrity vetting/check.

Archivist: Organizes, maintains & updates information/records using appropriate standards, procedures and systems for easy retrieval, accessibility and safe custody.

ACC
www.acc.org.bt

Intelligence

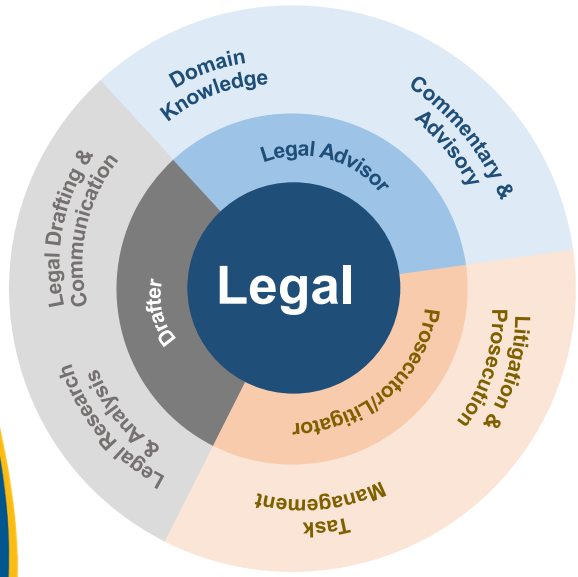

Information Collector: Plans and gathers information/data using appropriate collection methods to facilitate effective intelligence analysis.

Intelligence Analyst: Analyzes and evaluates information/data and corruption trends/patterns using appropriate research and analysis techniques/tools to anticipate/predict corruption scenario for informed decision-making.

Strategic Partner: Builds rapport and collaborates with relevant stakeholders/partners for swift and reliable exchange of information/technical expertise to efficiently and effectively carry out projects.

ACC
www.acc.org.bt

Legal

Legal Advisor: Applies appropriate legal theories, principles and doctrines to provide commentaries/advice and draw sound legal conclusions to fortify arguments and effective application of law.

Drafter: Prepares anti-corruption legislations and legal documents/briefs/memos by applying appropriate legal theories, principles, doctrines and research methods for effective application and harmonization of law.

Litigator/Prosecutor: Appraises case facts meticulously and uses appropriate litigation & prosecution techniques & methods for effective prosecution/litigation.

ACC
www.acc.org.bt

Policy & Planning

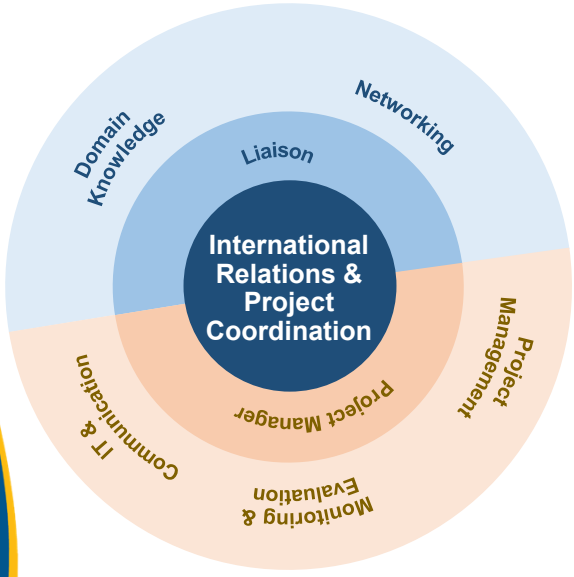

Strategic Planner: Identifies and innovates anti-corruption policies/strategies/plans/programs using appropriate methods including resources mobilization to realize desired organizational/national objectives.

Evaluator: Develops robust monitoring and evaluation plans using appropriate research methods and tools to achieve desired organizational/national objectives.

Coordinator: Identifies and liaises with relevant clients/stakeholders to exchange information/technical expertise, coordinate and follow up on programs/activities for the success of the programs/activities.

ACC
www.acc.org.bt

International Relations & Project Coordination

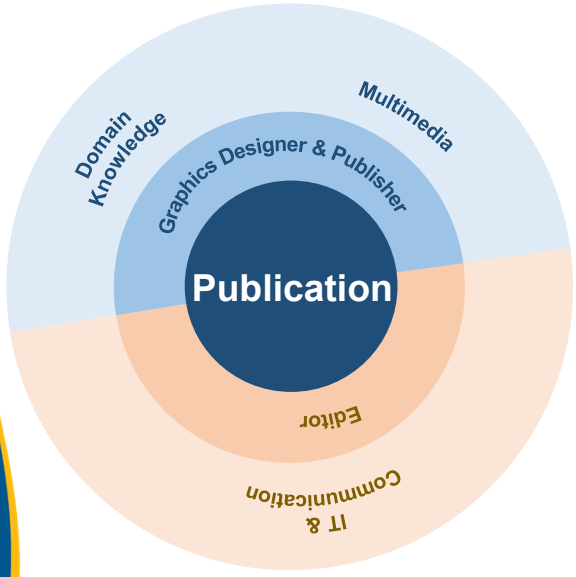

Liaison: Identifies and establishes professional networks with relevant national and international counterparts for expeditious exchange of information, technical expertise and best practices.

Project Manager: Plans, organizes, implements and monitors projects using appropriate project management, budgeting and M&E concepts, principles and techniques/tools for judicious use of resources and success of the projects.

ACC
www.acc.org.bt

Publication

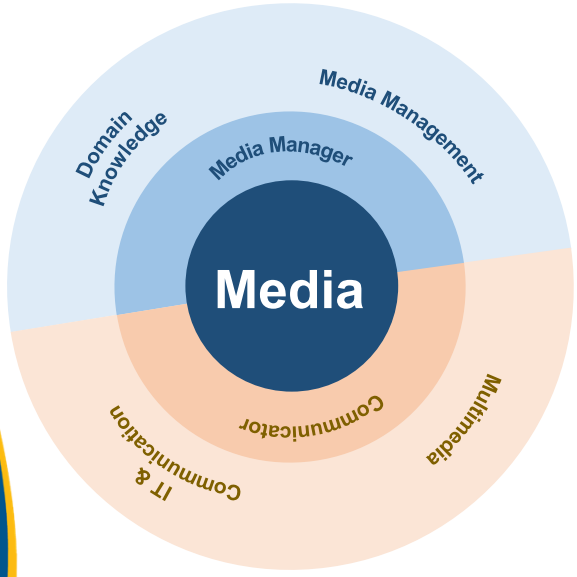

Graphics Designer & Publisher: Makes use of appropriate software, publishing, photo/audio/videography techniques and methods to design and innovate anti-corruption IEC materials/publications.

Editor: Assesses the standard of anti-corruption IEC materials/publications using knowledge of appropriate policies, laws, systems, SOPs, technologies, anti-corruption tools, measures and editing techniques to benchmark anti-corruption IEC materials/publications.

ACC
www.acc.org.bt

Information & Media

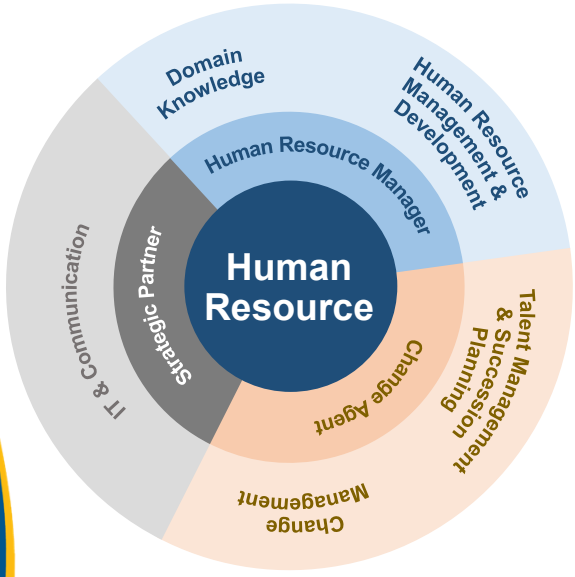

Media Manager: Develops/Enhances and implements media policies, strategies, plans and programs to successfully liaise with media, disseminate anti-corruption messages and enhance public trust.

Communicator: Makes use of appropriate dissemination techniques and media platforms to disseminate anti-corruption messages, advisories and public service announcements for wider reach and greater public awareness.

ACC
www.acc.org.bt

Human Resource

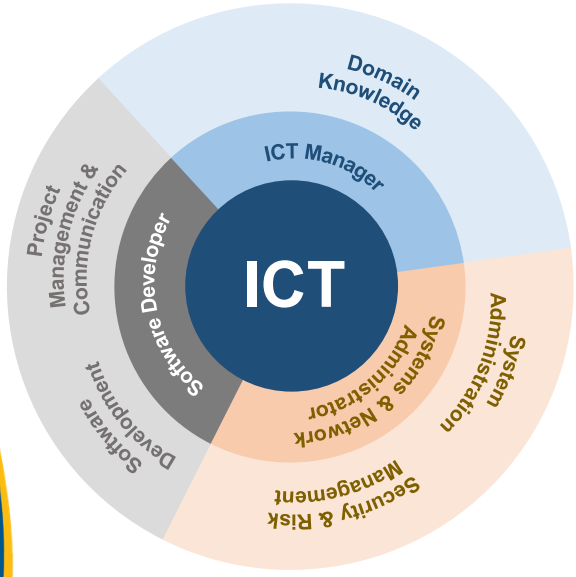

Human Resource Manager: Develops/Enhances and implements HRMD policies, plans, processes and guidelines to successfully manage staff performance and ensure continuous professional development.

Change Agent: Applies knowledge of HR policies, laws, systems, processes and guidelines to innovate HR strategies and programs that promotes meritocracy, institutionalizes succession planning and builds transparent & accountable HR system.

Strategic Partner: Values clients/stakeholders and engages with them in a courteous and friendly manner to provide efficient and effective HR services.

ACC
www.acc.org.bt

ICT

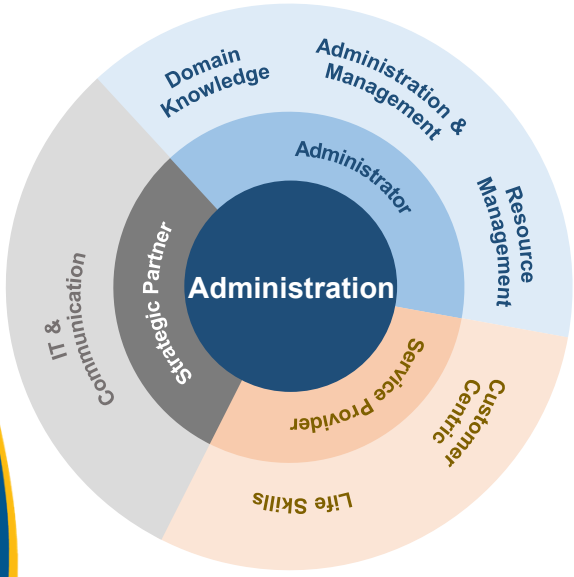

ICT Manager: Develops/enhances ICT services applying knowledge of ICT policies, laws, systems and anti-corruption measures for successful management of ICT services.

Systems & Network Administrator: Designs & upgrades systems and network to improve productivity and ensure secure and uninterrupted network & systems.

Software Developer: Applies knowledge of appropriate programming and scripting languages to develop or enhance business systems for efficient and effective ICT services.

ACC
www.acc.org.bt

Administration

Administrator: Applies knowledge of relevant policies, laws, systems, SOPs and service standards to provide effective and efficient administrative services, which includes but is not limited to events/programs management and developing risk management plans.

Service Provider: Utilizes and maintains facilities and equipment as per service standards and procedures to provide efficient & effective administrative services and promotes goodwill.

Strategic Partner: Values clients/stakeholders and engages with them in a courteous and friendly manner to provide efficient and effective administrative services.

ACC
www.acc.org.bt

Finance

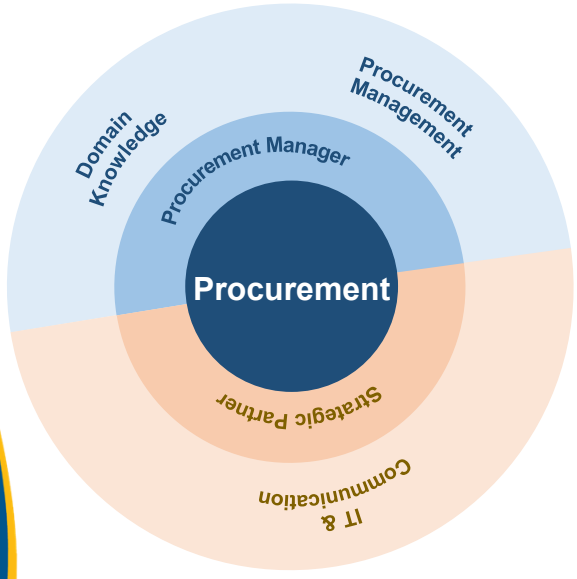

Financial Strategist: Identifies financial needs of the agency and ensures efficient allocation and utilization of limited resources to achieve agency's goals and objectives.

Financial Custodian: Applies standard accounting principles and systems in maintaining record of financial information and reports to appropriate authorities in a transparent and accountable manner.

Financial Operator: Compiles financial information, updates systems and manages financial data diligently for effective operation and informed decision making.

ACC
www.acc.org.bt

Procurement

Procurement Manager: Develops/enhances and implements procurement plans applying knowledge of procurement law, electronic procurement systems and other relevant policies and laws for successful procurement management.

Strategic Partner: Values clients/stakeholders and engages with them in a courteous and friendly manner to provide efficient and effective procurement services.
