ANTI-CORRUPTION COMMISSION

# COMMISSION MEETING FORM

| | |
|---|---|
| **MEETING NO.** | 31st Commission Meeting |
| **DATE:** | 8 June, 2021 |
| **TIME:** | 02:00 PM |
| **VENUE:** | CP's Chamber |

| # | AGENDA | DECISIONS |
|---|---|---|
| 1 | Proposal to conduct systems study on Community Contracting Protocol (CCP) – PD, DoPE | Considering the need to ensure impactful recommendations from the systems studies, the Commission directed to further improve the particular proposal (*draft proposal attached*) as follows:<br>• Consolidate the existing objectives to two or less with the focus on '*identifying corruption loopholes*' in the CCP.<br>• Include in-depth analysis of information on complaints, ATRs and cases related to Local Government as part of the desk review so as to facilitate determination of targeted objectives and scope including questionnaires for FGDs and/or key informant interviews. The field visits should, in fact, complement and/or validate the desk review findings. Moreover, while the study must be receptive to arguments, ideas and/or feedbacks, it is equally important to ensure that the team members have thorough understanding of the subject matter to facilitate the discussion without losing focus.<br>• Conduct further analysis on the rationales for developing & revising CCP to identify additional strategic impact areas of CCP through this study.<br>• Also include site visit and impact assessment as one of the methodologies for the study.<br>• Apply sampling techniques similar to that of NIA to minimize sampling biases besides ensuring balanced inputs.<br>• Keep timeframe for the study open to allow any necessary follow-up analysis.<br>• Revisit team composition from the ACC to ensure balanced representation of members with sound technical knowledge on finance, auditing, construction, contract management, and engineering, among others.<br>• Include third option for conducting the study in mixed-mode – ACC supported by external experts with above areas of specialization or experience. |

|---|---|---|
| 2 | Parameters to categorize Commission decisions – PPS<br><br>*In accordance with the decision of the 29th Commission Meeting held on 1 June 2021.* | The Commission endorsed the parameters to categorize Commission decisions as follows:<br><br>1. Policies, principles & strategies;<br>2. Operation;<br>3. Technology;<br>4. Resources; and<br>5. Networking.<br><br>*Detailed definition of the above parameters are attached.* |
| 3 | Update on financial progress of the current FY – PPS<br><br>*This is in accordance with the decision of the 29th Commission Meeting held on 1 June 2021.* | The Commission noted that the current and capital expenditure, as of 8 June 2021, stands at Nu. 79.874 mn and Nu. 12.652 mn respectively, which is only 68% of budget utilization against the total allocated budget of Nu. 135.410 mn. While additional expenditure of about Nu. 24.039 mn is expected to be incurred by end of June 2021, taking the budget utilization to 86%, the Commission noted that still about Nu. 7.869 mn [excluding project (Nu. 6.440 mn) and construction (Nu. 4.536 mn) budgets] is likely to remain as balance. *Summary of budget and expenditure progress as of 8 June 2021 is attached.*<br><br>In this regard, the Commission directed the Secretariat Services to explore possibilities of utilizing the expected capital budget balance other than project and construction budgets. The Commission discussed some possible areas for expenditure such as furnishing the ACC Choesham with necessary ritual accessories, maintenance/equipping lavatories, and maintenance of water supply & storage, among others. |
| 4 | Others:<br><br>i) Follow-up to judgment review appraisal on Goshing Gup case – LD | The Commission directed the Head, LD to discuss with the OAG prosecutor concerned to include facts about the charges dropped in the Trail Court based on dubious nature of invoices during the submission to the Hon'ble Supreme Court. *Details of the issue are recorded in the Judgment appraisal minutes.* |
| | ii) Seizure Form | The Commission directed the DoI & LD to revise the existing seizure form template to address concerns raised in recent Parliamentary session on suspension, seizure and freeze notice issued by the ACC on seized properties. |
| | iii) Long-term training (LTT) plans and priorities | In view of the increasingly limited resources to provide LTT programs for the staff vis-à-vis growing demands for specialization in technical skills and academic knowledge, the Commission highlighted the need to strategize ways to support LTT programs. For instance, specialization in research is critical to accord due recognition on the findings and propositions made stemming out of research projects.<br><br>On the other hand, with the current pandemic, likelihood of in-campus programs anytime soon is near impossible. Moreover, with almost 72% of the staff under P-Level without Master's Degree, it is expected to be a challenge to ensure minimum work force apropos increasing number of individuals getting eligible for LTT programs. Hence, exploring online LTT programs with the available resources appears to be an option.<br><br>In view of the above, the Commission directed the HRS to |

| | | |
|---|---|---|
| | | present overall LTT programs including policies and procedures adopted to plan, prioritize and implement LTT programs. |
| | iv) GRM in the ACC | The Commission directed the PPS & LD to present the draft GRM for endorsement and operationalization in the ACC. |
| | v) Next QSM | In addition to the earlier instructions to include brainstorming sessions on '*need improvement*' under the NIA Agency Report of the ACC, the Commission further directed the PPS to start preparing for the upcoming QSM in July 2021 and suggested some additional topics like the session on '*Search Inside Yourself*' resourced by the RCSC. If need be, the session might be coordinated as a buildup program to the QSM or experience sharing session. |
