1	Development of ECCD training manual and way forward – ED	The Commission endorsed the proposal to roll out the integrity education program for the ECCD by conducting Training of Trainers (ToT) for District Education Officers and selected ECCD facilitators. Specific directives of the Commission to ED were as follows: • re-articulate the title of the program for appropriate branding. • instead of the proposed three regions, the ToTs to be conducted in four regions. While the first three regions were approved to be covered in the month of August as proposed, the ToT for Southern region was deferred in keeping with the current pandemic related restrictions. Depending on the relaxation of restrictions, the southern region may be covered in winter. • increase the number of participants depending on the total number of ECCDs in each Dzongkhag, however, with minimum required participation of three, involving a DEO and two facilitators, to ensure sustainability of the program. Notwithstanding this increase, ED to ensure that the total number of participants in each session do not exceed the total permissible number of 25, in force for pandemic situation. Any additional costs for this change, to be revisited in consultation with the PPS in view of limited budget for the program. • in order to accord importance for the training, ED may explore involving the Commission for opening sessions. • by the end of the training, the participants should be made to prepare a tentative timeline for rolling out the training in their respective Dzongkhags. • strategize creative approach to assess the effectiveness of the program in the ECCDs and measure its impact on the children. • revisit the existing approach to roll out integrity education in schools and tertiary institutions in the similar systematic approach of education for ECCDs.
