#	AGENDA	DECISIONS
1.	Update on the IACD 2021 – ED, DoPE	The Commission endorsed the final program for the upcoming IACD on 9 December 2021 with following few directives to: • use Pledge Book instead of Integrity Tree for the program with Heads of Constitutional Offices, OAG, BTI and other guests to pledge against corruption; and • invite media for coverage of the event.
2.	Proposal to host AD database in the GDC and revise declaration period – ADMD & ICTS	***Hosting AD database in the Government Data Center (GDC)*** Following the directive from the Commission, the team explored the possibility of hosting the Asset Declaration (AD) database in the Government Database Center (GDC). Some of the advantages observed were: • two tier power supply (Basochhu and Chukha hydropower project); • dual internet supply (Bhutan Telecom Ltd. and Tashi Infocomm Ltd.); • 10 GB internet speed; • enhanced level of security facility both in terms of physical and system; • plans to set up data backup station at Bumthang; • no cost involved for maintaining the infrastructure; and • possibility to increase the internet speed during peak season of AD. Besides the above advantages, the team also appraised that since most of the government database are/will be hosted in the GDC, the integration of AD system with other databases will be seamless, given the common platform. Thus, the team recommended to host the AD database in the GDC and also re-appropriate the budget apportioned for procurement of server for the AD system to other priority as deemed necessary. To this, before deciding on this, the Commission directed the ICTS to further discuss with Directors/Heads of other Departments/Divisions in particular DoI, DoPS and TSD on the

		same and report back to the Commission. ***Revising declaration period for the AD*** Following the bilateral meeting with the Department of Revenue & Customs, MoF on data integration, the ADMD proposed to revise the declaration period to align with the tax filing period i.e. from February-March (April being grace period) to March-April. Some of the expected benefits of the proposal were: • enhanced authentication and validation of information declared in the ADS as this will allow the ADS to pull data from DRC; • eased user interface as this will require individuals to provide data on income and expenditure only once while filling the tax; and • augment the current process of data integration as also suggested by the Consultant working on enhancement of ADS. To this, in keeping with the Section 38 (4) of ACAB 2011 wherein it only mentions *due date,* the LD informed that the proposal is well aligned with the ACAB provisions. However, this would require effecting changes in the Asset Declaration Rules 2017. In view of the above, the Commission decided to revise the declaration period for AD to March-April with effect from upcoming declaration period. To this, directed the ADMD to issue an Executive Order on the same for compliance.
