#	AGENDA	DECISIONS & RESPONSIBLE
1.	Discuss way forward on the operational plan of ACC Roadmap - ASCT	One of the key aspects of the ACC Roadmap is the establishment of the ACC Offices in three regions (Phuentsholing, Bumthang and Samdrup Jongkhar). Towards this, the Commission directed the Departments/Divisions to discuss among the staff and recommend the list of staff to be placed at the offices. Thus, based on the interest of the staff and the need to meet the requirement of staff in both the regional as well as head office, the heads of Departments/Divisions suggested as follows: • From DoI, a total of two teams will be placed at Phuentsholing while one team each will be placed at Bumthang and Samdrup Jongkhar. Moreover, the induction for the 12 new staff who were recruited in 2022 will be done soon so that they can be placed at the regional offices. • From Legal Division, they proposed to recruit the Legal Officers (LO) at the regional offices on contract. The Legal Officers from the head office will be deployed at the regional offices on rotation basis for a period of 6 months until the new recruits are fully inducted. • From DoPS, against the proposal of three Professional and Management (P&M) staff, two staff in P&M and one from the Support Services showed their interest. • From DoPE, against the proposal of three staff, only two showed their interests. • Towards operationalizing DARe, the department has proposal to recruit 12 staff along with four agents in 2022. For the recruitment of 12 staff, as practiced, the department plans to recruit majority of the staffs internally for which some staff has shown their interest. • As for DOS, there are volunteers but, if need be, officer from head office will assist and go on rotation basis.

		The Commission noted that the increased number of staff showing interest at regional offices is a positive indication. Nonetheless, not having the list of all required 40 staff is disheartening. However, given the need to move ahead, the Commission made the following decisions: • The first team at the Regional Offices will be the pioneer groups who will determine how the ACC wants to achieve its goal towards creating deterrence through its presence. Thus, the staff placed at the regional offices need to have experienced officials in order to build a strong team. • The objective of going Intelligence-Based Investigation (IBI) will largely depend on operationalizing and successful functioning of DARe. However, since it is a new department with the need to enhance its intelligence and research capacity, all departments/divisions must provide their assistance for the DARe to perform efficiently. • The planned recruitment of 35 staff for 2022 as per the roadmap to be discussed in the HRC. • The PPS with assistance from Director Wangay, DoPS to develop the Placement Policy. • The PPS to explore the capital expenses related to regional offices from projects. • AFS to work on budget required for Regional Offices as well as providing transfer grant on basis of special assignment. `
