Ref. No. ACC/QMS/F/CoM/01

ANTI-CORRUPTION COMMISSION

COMMISSION MEETING FORM

MEETING NO. 88th Commission Meeting

DATE: 13 July 2022

TIME: 2:00 PM

VENUE: Third Floor Meeting Room

#	AGENDA & DISCUSSIONS	DECISIONS
	Appeal request on suspension of business license and freeze account - DoI	Write a letter to Mr. Ajay Darnal and copy to DPNB, indicating that we have just suspended the business license and did not mention anything related to freeze or unfreezing of account. In doing so, the team may also refer to the preceding letter.
	Seeking endorsement on APT 2021/22 evaluation report The PPD presented the evaluation report of the ACC's APT 2021/22 to the Commission to seek endorsement. It was apprised that some of the Success Indicators (SIs) could not be completed due to force majeure (factors that are completely out of our control). Therefore, those SIs backed by evidence are tabled for discussion for commission's consideration. *Evaluation report of the APT 2021/22 attached*	While the Commission endorsed the score as presented, some specific comments were given for specific SIs as follows; • Considering that the target of 6-7 intel projects conducted was set based on the assumption that the DARe proposal gets through, the Division's achievement of 4 actionable intel projects must be scored under the excellent category. • **Information Enrichment (IE) completed**: In view that there are cases where staff from CMD were on special assignment with DoI, thereby hindering the achievement of target, the PPD were directed to furnish additional evidence in order to accord consideration to the SI. • As the launch of assessment on impact of Social Accountability and value education and youth integrity was deferred based on the Commission's direction, the score against the said SI should be given as recommended. • The SI 'AD System enhanced' was delayed due to prolonged lock down, aggravated by the change in scope of the enhancement. Therefore, taking into account such challenges, the PPD was directed to produce additional evidence to accord the consideration while also ensuring informed decision making.

		• **Investigation module in the CIMS enhanced**: Although the implementation of SI does not fall in any of the targets, the implementation of the SI is affected due to the Project Manager's leaving the job. In addition, with only one staff in the ICTS, the enhancement work has been hindered. Notwithstanding such challenges, the system development is progressing well. Considering this, the Commission directed to score it under 'Good' category. However, the PPD was directed to provide plausible justification against the SI while updating the scores in the GPMS. • **Technical support services provided**: The PPD to ensure that those assignments assigned by the Commission directly to the TSD to be considered for the assessment from the next assessment. • **The Construction of Office building in Phuentsholing completed:** The construction of the office building at Phuntsholing was hampered by the prolonged lockdown. Therefore, the PPD to work out days lost to the Covid-19 restrictions and accordingly accord the score. • **The SRS and concept paper on M & E system for the anti-corruption and integrity measures developed:** Given that the SRS for the M&E system could not be developed owing to lack of Human Resource capacity in the ICTS and PPD and that the preparation requires rigorous consultation with stakeholders, the Commission decided to score the SI in 'Good' category for the concept paper developed. • Given that the inputs for the Annual Report are provided by the Departments/Divisions/Service, the score for the said SI was directed to be shared among Departments/Divisions/Service. This will not only account for the contribution of the Depts./Divs./Service but also make them accountable as they will be more responsible in submitting the data/information on time. With regard to the translation of the annual report, it was directed to do using in house resources. This will help to minimize the cost and also ensure quality of the report. The Commission went through all 63 success indicators, to which three success indicators (viz. Bhutan as a reviewing state, Intranet system for the ACC launched and Installation of biometric completed) were decided to be excluded from the evaluation. Therefore, the APT 2021-2022 will be evaluated out of 98.

	Present the model public service code of conduct - PD & LD The LD has presented the Model Code to seek Commission's comments. The Model Code was reviewed thoroughly and accordingly made the changes therein in the process of review and discussion. The first draft is attached.	Despite incorporation of changes in the clauses of draft Model Code in the process of review, the Commission directed the LD to: (i) Refer the Royal Addresses for the choice of words and to address royal concerns; (ii) Refer Jakarta principles to explore additional standards of integrity; (iii) Seek assistance of PPD to obtain a copy of Singaporean model code and accordingly improve the draft; (iv) Explore possibility to include clause on Intellectual Property Right and Patent Right of intellectual works resulted from official works; and (v) Include a clause on rules of construction.
